### Situation Report Severe Storms October 18, 2007, noon

#### UPDATED INFORMATION IN BOLD

#### SUMMARY

A line of severe storms moved across Missouri Wednesday afternoon and evening causing heavy rains, damaging winds and several suspected tornadoes. Two Missourians were killed in north central Missouri. Flash flood warnings and river flood warnings were issued by National Weather Service. SEMA officials are monitoring the situation and will get further reports as daylight allows inspections. SEMA has received no requests for assistance at this time.

Ameren officials report, about 11,800 customers in Missouri are without power, with 5,000 in Cape Girardeau County, 4,300 in St Louis County, and 1,700 in St Charles County. Ameren officials say power should be restored to nearly all areas by 12pm on Thursday. **Local EMDs report power is in the process of being restored**

#### County Reports:

**Adair County**—Power outages were reported in Kirksville Wednesday night, but power has since been restored for most of the area. **No damages or injuries reported.**

**Callaway County**—High winds destroyed a grain barn near Highway Z and JJ. Also minor damage reported north of Kingdom City. **One house with minor damages. No injuries reported.**

**Stoddard County—**High winds caused some minor power outages around the county.

**St Charles County—**High winds caused significant power outages. Officials initially reported about 1700 customers without power in and around City of St Charles. **Now, less than 700 customers without power, power in the process of being restored. No injuries, no requests for assistance.**

**St Louis County—**High winds knocked out power in the county. Officials report about 4300 homes and businesses without power. **Power being restored. No injuries, no requests for assistance.**

**St. Louis City – No disaster related power outages, no injuries, and no requests for assistance.**

#### **Weather**

National Weather Service forecast calls for windy conditions on Thursday, with gusts in some areas reaching 35 mph. The weather service also says thunderstorms could redevelop on Thursday, although the possibility of widespread severe weather is not as great. River levels are rising in areas of northwest Missouri, but no major flooding is currently forecast. **NWS advises there will be a strong low-pressure system over Northern Missouri, a Cold Front in Eastern Missouri and Strong winds in SE Missouri today**

**SEOC Activated to Level 1 to monitor situation.**

**State Agencies monitoring the conference call and available to assist were: DNR, Highway Patrol, Water Patrol, Fire Safety, Social Services, Health & Senior Services, Office of Administration.**

#### **Volunteer Organizations:**

**American Red Cross in Northeast Missouri and Southwest Missouri are assisting families in Monroe County and Lawrence County.**

**Missouri Assn of Rural Electric Cooperatives is working with member organizations on rural power restoration.**

#### **Point of Contact:**
